

NATIVE VILLAGE OF AFOGNAK
RESOLUTION NUMBER 2007-03

TO ENCOURAGE THE IMPLEMENTATION OF NATIONAL PROGRAMS DESIGNED TO
REDUCE CLIMATE CHANGE POLLUTION

WHEREAS, the Native Village of Afognak (NVA) is the federally recognized Indian tribe for the "Native Village of Afognak" as defined in section 3 (c) of the Alaska Native Claims Settlement Act, as amended; and

WHEREAS, NVA is an Indian Tribe as defined in section 103(e) of the Indian Self-Determination Act of 1975, as amended; and

WHEREAS, NVA is organized under a constitution duly adopted under Section 16 of the federal Indian Reorganization Act, as amended (25 U.S.C. 476); and

WHEREAS, the Native Village of Afognak Tribal Council is the governing body of the Native Village of Afognak; and

WHEREAS, Alaska Natives have survived for hundreds of years and built our cultures around our environments and our traditional subsistence ways of life; and

WHEREAS, scientific consensus has developed that carbon dioxide (CO₂) and other greenhouse gases released into the atmosphere have a profound effect on the Earth's climate; and

WHEREAS, climate-related changes to the weather and local landscapes undermine the social identity and cultural survival of all Alaska Natives and have significant impacts on the availability of food sources such as salmon, herring, whales, caribou, moose, seabirds, and waterfowl; and

WHEREAS, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing pollution, creating jobs, reducing energy use, saving money and preserving our traditional ways of life; and

WHEREAS, renewable energy resources developed in a manner which does the least amount of damage to the natural surroundings protects the environment and is beneficial to and respects the individuals living in and around the area; and

NOW, THEREFORE, BE IT RESOLVED that the Native Village of Afognak hereby urges the United States Congress and the President of the United States to promote and support a national program to reduce climate change pollution, promote the responsible development of natural resources, and the development of renewable energy resources within a timeframe that prevents irreversible harm to public health, the economy, the environment, and the loss of cultural identity for all Alaska Native, Native Americans, and Native Hawaiians.

NATIVE VILLAGE OF AFOGNAK

By: Nancy Nelson
Nancy Nelson, Chairperson

Native Village of Afognak Tribal Council

ATTESTATION

The foregoing Resolution was adopted, by a telephone poll of the NVA Tribal Council, on March 6, 2007, during which a quorum was polled, by a vote of 4 FOR and 0 AGAINST, with 0 Abstentions.

By: 
Arlene Nelson, Secretary
Native Village of Afognak Tribal Council

CLIMATE CHANGE RESOLUTION 06-

WHEREAS, the Native Village of Akhiok, is a federally recognized Tribe with all powers and responsibilities inherent in a sovereign government; and

WHEREAS, scientific consensus has developed that carbon dioxide (CO₂) and other greenhouse gases released into the atmosphere have a profound effect on the Earth's climate; and

WHEREAS, in 2001, at the request of the Administration, the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities; and

WHEREAS, the 2001 Third Assessment Report from the International Panel on Climate Change (IPCC) and the 2000 U.S. Global Change Research Program's (USGCRP) First National Assessment indicate that global warming has begun; and

WHEREAS, 162 countries including the U.S. pledged under the United Nations Framework Convention on Climate Change to reduce its greenhouse gas emissions; and

WHEREAS, Alaska Natives have developed unique cultures based on the prevailing regional climate and climate change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, whales, caribou, moose, seabirds and waterfowl, and will present serious challenges to subsistence ways of life in Alaska and other regions; and

WHEREAS, climate-related changes to the weather, food sources, and local landscapes undermine the social identity and cultural survival of Alaska Natives; and

WHEREAS, changes in climate will create new challenges for community health systems, rural infrastructure and economies; and

WHEREAS, unpredictable weather, snow, and ice conditions make travel and traditional hunting and fishing practices more hazardous and endangers lives; and

WHEREAS, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use, and saving money; and

NOW THEREFORE, BE IT RESOLVED, that the Native Village of Akhiok urges the United States Congress and President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to public health, the economy and the environment.

DATED: June 12, 2006

CLIMATE CHANGE RESOLUTION 07-03

WHEREAS, the Alatna Tribal Council, is a federally recognized Tribe with all powers and responsibilities inherent in a sovereign government; and

WHEREAS, scientific consensus has developed that carbon dioxide (CO₂) and other greenhouse gases released into the atmosphere have a profound effect on the Earth's climate; and

WHEREAS, in 2001, at the request of the Administration, the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities; and

WHEREAS, THE 2001 Third Assessment Report from the International Panel on Climate Change (IPCC) and the 2000 U.S. Global Change Research Program's (USGCRP) First National Assessment indicate that global warming has begun; and

WHEREAS, 162 countries including the U.S. pledged under the United Nations Framework Convention on Climate Change to reduce its greenhouse gas emission; and

WHEREAS, Alaska Natives have developed unique cultures based on the prevailing regional climate and climate change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, walrus, caribou, moose, seabirds, and waterfowl, and will present serious challenges to subsistence ways of life in Alaska and other regions; and

WHEREAS, climate-related changes to the weather, food sources, and local landscapes undermine the social identity and cultural survival of Alaska Natives; and

WHEREAS, changes in climate will create new challenges for community health systems, rural infrastructure and economics; and

WHEREAS, unpredictable weather, snow and ice conditions make travel and traditional hunting and fishing practices more hazardous and endangers lives; and

WHEREAS, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use, and saving money; and

NOW THEREFORE BE IT RESOLVED, that the Alatna Tribal Council urges the United States Congress and President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to

CERTIFICATION

I, the undersigned, hereby certify that the Alatna Tribal Council is currently composed of four members, of whom 4, constituting a quorum, were present at a meeting convened this 21 day of Feb, 2007, and that the foregoing Resolution was duly adopted at said meeting by the affirmative vote of 4 members, and opposed by 0 members, and that said Resolution has not been rescinded or amended in any way.

Michelle Sam, First Chief

CLIMATE CHANGE RESOLUTION 07-14

WHEREAS, the Allakaket Tribal Council, is a federally recognized Tribe with all powers and responsibilities inherent in a sovereign government; and

Resolution 06-26

A RESOLUTION URGING THE UNITED STATES CONGRESS AND THE PRESIDENT OF THE UNITED STATES TO MOVE FORWARD ON A NATIONAL, MANDATORY PROGRAM TO REDUCE CLIMATE CHANGE POLLUTION AND TO PROMOTE THE DEVELOPMENT OF RENEWABLE ENERGY THAT PREVENTS IRREVERSABLE HARM TO THE PUBLIC HEALTH, THE ECONOMY AND THE ENVIRONMENT

WHEREAS: The Native Village of Buckland is a federally recognized tribe established pursuant to the Indian Reauthorization Act of 1936 with all powers and responsibilities inherent in a sovereign government and;

WHEREAS: Scientific consensus has developed that carbon dioxide (CO₂) and other greenhouse gases released into the atmosphere have a profound effect on the Earth's climate and in 2001, at the request of the Administration, the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities and;

WHEREAS: The 2001 Third Assessment Report from the International Panel on Climate Change (IPCC) and the 2000 U.S. Global Change Research Programs(USGCRP) First National Assessment indicate that global warming has begun and 162 countries including the U.S. pledged under the United Nations Framework Convention on Climate Change to reduce its greenhouse gas emissions and;

WHEREAS: Alaska Natives have developed unique cultures based on the prevailing regional climate and climate change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, whale, caribou, moose, seabirds and waterfowl, and will present serious challenges to subsistence ways of life in Alaska and other regions and;

WHEREAS: Climate-related changes to the weather, food sources, and local landscape undermine the social identity and cultural survival of Alaska Natives and;

WHEREAS: Changes in climate will create new challenges for community health systems, rural infrastructure and economics and unpredictable weather, snow, and ice conditions make travel and traditional hunting and fishing practices more hazardous and endangers lives and;

WHEREAS: Actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use ,and saving money and;

NOW THEREFORE BE IT RESOLVED, that the Native Village of Buckland urges the United States Congress and the President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to public health, the economy and the environment.

Certification
