CLIMATE CHANGE RESOLUTION No. 06-07

WHEREAS, The Native Village of Gakona, is a federally recognized Tribe with all powers and responsibilities inherent in a sovereign government; and

WHEREAS, scientific consensus has developed that carbon dioxide (CO2) and other greenhouse gases released into the atmosphere have a profound effect on the earth’s climate; and

WHEREAS, in 2001, at the request of the Administration, the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities; and

WHEREAS, the 2001 Third Assessment Report from the International Panel on Climate Change (IPCC) and the 2000 U.S. Global Change Research Program’s (USGCRP) First National Assessment indicate that global warming has begun; and

WHEREAS, 162 countries, including the U.S., have pledged under the United Nations Framework Convention on Climate Change to reduce its greenhouse gas emissions; and

WHEREAS, Alaska natives have developed unique cultures based on the prevailing regional climate and change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, whales, caribou, moose, seabirds and waterfowl, and will present serious challenges to subsistence ways of life in Alaska and other regions; and

WHEREAS, climate-related changes to the weather, food sources, and local landscapes undermine the social identity and cultural survival of Alaska Natives; and

WHEREAS, changes in climate will create new challenges for community health systems, rural infrastructure and economies; and

WHEREAS, unpredictable weather, snow, and ice conditions make travel and traditional hunting and fishing practices more hazardous and endangers lives; and

WHEREAS, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use, an saving money; and
NOW THEREFORE BE IT RESOLVED, that the Native Village of Gakona urges the United States Congress and the President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to public health, the economy and the environment.

CLIMATE CHANGE RESOLUTION 06-09

WHEREAS, the NATIVE VILLAGE OF GAMBEll is a federally recognized Tribe with all powers and responsibilities inherent in a sovereign government; and

WHEREAS, scientific consensus has developed that carbon dioxide (CO2) and other greenhouse gases released into the atmosphere have a profound effect on the Earth's climate; and

WHEREAS, in 2001, at the request of the Administration, the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities; and

WHEREAS, the 2001 Third Assessment Report from the International Panel on Climate Change (IPCC) and the 2000 U.S. Global Change Research Program's (USGCRP) First National Assessment indicate that global warming has begun; and

WHEREAS, 162 countries including the U.S. pledged under the United Nations Framework Convention on Climate Change to reduce its greenhouse gas emissions; and

WHEREAS, Alaska Natives have developed unique cultures based on the prevailing regional climate and climate change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, whales, caribou, moose, seabirds and waterfowl, and will present serious challenges to subsistence ways of life in Alaska and other regions; and

WHEREAS, climate-related changes to the weather, food sources, and local landscapes undermine the social identity and cultural survival of Alaska Natives; and

WHEREAS, changes in climate will create new challenges for community health systems, rural infrastructure and economies; and

WHEREAS, unpredictable weather, snow, and ice conditions make travel and traditional hunting and fishing practices more hazardous and endangers lives; and

WHEREAS, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use, and saving money; and

NOW THEREFORE, BE IT RESOLVED, that the NATIVE VILLAGE OF GAMBEll urges the United States Congress and President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to public health, the economy and the environment.

DATED: JUNE 26, 2006
A resolution to influence positive changes in national programs that will reduce climate change pollution and promote use of renewable energy.

WHEREAS, the Georgetown Tribal council is a federally recognized Tribal governing body for the Native Village of Georgetown; and

WHEREAS, the Council represents the interests of the tribal members of Georgetown; and

WHEREAS, scientific consensus has developed that carbon dioxide (CO₂) and other greenhouse gases released into the atmosphere have a profound effect on the Earth’s climate; and

WHEREAS, in 2001, at the request of the Administration, the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities; and

WHEREAS, the 2001 Third Assessment Report from the International Panel on Climate Change (IPCC) and the 2000 U. S. Global Change Research Program’s (USGCRP) First National Assessment indicate that global warming has begun; and

WHEREAS, 162 countries including the U. S. pledged under the United Nations Framework Convention on Climate Change to reduce its greenhouse gas emissions; and

WHEREAS, Alaska Natives have developed unique cultures based on the prevailing regional climate and climate change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, whales, caribou, moose, seabirds and waterfowl, and will present serious challenges to subsistence ways of life in Alaska and other regions; and

WHEREAS, climate-related changes to the weather, food sources, and local landscapes undermine the social identity and cultural survival of Alaska Natives; and

WHEREAS, changes in climate will create new challenges for community health systems, rural infrastructure and economics; and
WHEREAS, unpredictable weather, snow, and ice conditions make travel and traditional hunting and fishing practices more hazardous and endanger lives; and

WHEREAS, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use, and saving money; and

NOW THEREFORE BE IT RESOLVED THAT, the Georgetown Tribal Council urges the United States Congress and President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to public health, the economy, and the environment.

CERTIFICATION

Passed and approved by constituted quorum of the council via email and verbal telephone votes on this 13 day of July, 2006 by the vote of 4 in favor, 0 opposed, and 1 abstaining.

DATED: 6-12-0Q
Resolution No. 2007-10

Climate Change Resolution

Whereas, the Kenaitze Indian Tribe is a federally recognized Tribal Government reorganized under the statutes of the Indian Reorganization Act of 1934, as amended for Alaska in 1936, and in accordance with the Preamble to the Tribal Constitution, "is responsible for the social welfare of its 1,254 Tribal members and 2,423 Alaska Native and American Indians of the Central and Upper Southern Kenai Peninsula of south central Alaska"; and,

Whereas, scientific consensus has developed that carbon dioxide (CO2) and other greenhouse gases released into the atmosphere have a profound effect on the Earth’s climate; and,

Whereas, in 2001, at the request of the Administration the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities; and,

Whereas, the 2001 Third Assessment Report from the International Panel on Climate Change (IPCC) and the 2000 U.S. Global Change Research Program’s (USGCRP) First National Assessment indicate that global warming has begun; and,

Whereas, 162 countries including the U.S. pledged under the United Nations Framework Convention on climate Change to reduce its greenhouse gas emissions; and,

Whereas, Alaska Natives have developed unique cultures based on the prevailing regional climate and climate change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, whales, caribou, moose, seabirds and waterfowl, and will present serious challenges to subsistence ways of life in Alaska and other regions; and,

Whereas, climate-related changes to the weather, food sources, and local landscapes undermine the social identity and cultural survival of Alaska Natives; and,

Whereas, changes in climate will create new challenges for community health systems, rural infrastructure and economies; and,

Whereas, unpredictable weather, snow, and ice conditions make travel and traditional hunting and fishing practices more hazardous and endangers lives; and,

Whereas, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use, and saving money; and,

Now Therefore Be It Resolved, that the Kenaitze Indian Tribe Executive Committee/Tribal Council urges the United States Congress and President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to public health, the economy, and the environment.
RESOLUTION: KIC-07-12

TITLE: A RESOLUTION OF THE TRIBAL COUNCIL OF THE KETCHIKAN INDIAN COMMUNITY (KIC) TO URGE THE UNITED STATES CONGRESS AND PRESIDENT OF THE UNITED STATES TO MOVE FORWARD ON A NATIONAL, MANDATORY PROGRAM TO REDUCE CLIMATE CHANGE POLLUTION AND PROMOTE THE DEVELOPMENT AND ADOPTION OF RENEWABLE ENERGY WITHIN A TIMEFRAME THAT PREVENTS IRREVERSIBLE HARM TO PUBLIC HEALTH, THE ECONOMY AND THE ENVIRONMENT.

WHEREAS, the Tribal Council of the Ketchikan Indian Community, doing business as the Ketchikan Indian Community ("KIC" or the "Tribe"), is a federally recognized Tribal government organized under a Constitution and Bylaws (collectively, the "Constitution") ratified on January 27, 1940, pursuant to Section 16 of the Indian Reorganization Act (IRA) of 1936 as amended; and

WHEREAS, the KIC Tribal Council (the "Tribal Council") is the representative Tribal Government of the Tribe; and

WHEREAS, the KIC Tribal Council is empowered under Article V, Section 1(m) of the KIC Constitution to "protect the general welfare and security" of the KIC Tribal Government; and

WHEREAS, scientific consensus has developed that carbon dioxide (CO2) and other greenhouse gases released into the atmosphere have a profound effect on the Earth's climate; and

WHEREAS, in 2001, at the request of the Administration, the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities; and

WHEREAS, the 2001 Third Assessment Report from the international Panel on Climate Change (IPCC) and the 2000 U.S. Global Change Research Programs (USGCRP) First National Assessment indicate that global warming has begun; and

WHEREAS, 162 countries including the U.S. pledged under the United Nations Framework Convention on Climate Change to reduce its greenhouse gas emissions; and

WHEREAS, Alaska Natives have developed unique cultures based on the prevailing regional climate and climate change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, whales, caribou, moose, seabirds and waterfowl, and will present serious challenges to subsistence ways
of life in Alaska and other regions; and

WHEREAS, climate-related changes to the weather, food sources, and local landscapes undermine the social identity and cultural survival of Alaska Natives; and

WHEREAS, changes in climate will create new challenges for community health systems, rural infrastructure and economies; and

WHEREAS, unpredictable weather, snow, and ice conditions make travel and traditional hunting and fishing practices more hazardous and endangers lives; and

WHEREAS, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use, and saving money; and

NOW, THEREFORE, IN CONSIDERATION OF THE ABOVE FACTS, IT IS RESOLVED BY THE TRIBAL COUNCIL OF THE KETCHIKAN INDIAN COMMUNITY as follows: that Ketchikan Indian Community hereby urges the United States Congress and President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to public health, the economy and the environment.

Section 1. This resolution is effective upon adoption.

CERTIFICATION

The foregoing resolution was adopted at a duly convened meeting of the Ketchikan Indian Community Tribal Council, assembled this 12th day of May 2007, at 2960 Tongass Ave., Ketchikan, Alaska 99901, by a vote of:

WHEREAS, the Sun’aq Tribe of Kodiak is a federally recognized Tribe with all powers and responsibilities inherent in a sovereign government; and

WHEREAS, scientific consensus has developed that carbon dioxide (CO2) and other greenhouse gases released into the atmosphere have a profound effect on the Earth’s climate; and

WHEREAS, in 2001, at the request of the Administration, the National Academy of Sciences (NAS) reviewed and declared global warming a real problem caused in part by human activities; and

WHEREAS, the 2001 Third Assessment Report from the International Panel on Climate Change (IPCC) and the 2000 U.S. Global Change Research Program’s (USGCRP) First National Assessment indicate that global warming has begun; and

WHEREAS, 162 countries including the U.S. pledged under the United Nations Framework Convention on Climate Change to reduce its greenhouse gas emissions; and

WHEREAS, Alaska Natives have developed unique cultures based on the prevailing regional climate and climate change is likely to have significant impacts on the availability of subsistence food sources such as salmon, herring, whales, caribou, moose, seabirds and waterfowl, and will present serious challenges to subsistence ways of life in Alaska and other regions; and

WHEREAS, climate-related changes to the weather, food sources, and local landscapes undermine to social identity and cultural survival of Alaska Natives; and

WHEREAS, changes in climate will create new challenges for community health systems, rural infrastructure and economies; and

WHEREAS, unpredictable weather, snow, and ice conditions make travel and traditional hunting and fishing practices more hazardous and endangers lives; and

WHEREAS, actions taken to reduce greenhouse gas emissions and increase energy efficiency provide multiple local benefits by decreasing air pollution, creating jobs, reducing energy use, and saving money; and

NOW THEREFORE BE IT RESOLVED, that the Sun’aq Tribe of Kodiak urges the United States Congress and President of the United States to move forward on a national, mandatory program to reduce climate change pollution and promote the development and adoption of renewable energy within a timeframe that prevents irreversible harm to public health, the economy and the environment.

CERTIFICATION
The foregoing resolution was approved by the Sun’aq Tribal Council on June 20, 2006 by a vote of _5_ FOR, _0_ AGAINST; _2_ ABSENT or _0_ ABSTAINED.
